

JoMabel Healthcare Foundation Inc.

Inaugural Newsletter for IRS 501(c)(3) Supporting Materials

Building Systems. Restoring Health. Empowering Communities.

Message from the Founder & President

JoMabel Healthcare Foundation was born from both personal experience and a calling to serve. As a survivor of cancer and kidney disease, Dr. Clara Ada Ogbaa is committed to ensuring that no one is denied quality healthcare because of geography or circumstance. Today, that vision is taking shape in Ufuma, Anambra State, Nigeria, where the Foundation is building an integrated healthcare and training ecosystem designed to serve underserved communities for generations.

Who We Are

JoMabel Healthcare Foundation Inc. is a nonprofit organization focused on expanding access to high-quality healthcare and training in underserved communities, primarily in Southeastern Nigeria. Its work combines healthcare delivery, workforce development, and infrastructure investment to build lasting systems rather than temporary interventions.

Why Ufuma, Anambra State?

- Residents previously lacked access to a fully equipped medical facility.
- Preventive and maternal health services were limited.
- The region faces a significant shortage of trained healthcare professionals.

Flagship Infrastructure Project

At the center of the Foundation's work is a 16,000+ square meter integrated medical and training complex in Ufuma.

- **JoMabel Medical Center:** 6,000+ square meters; approximately 70% complete. Planned services include primary care, maternal and child health, diagnostics, and emergency services.
- **Skill Acquisition & Medical Training Center:**

Approximately 30% complete. Designed to train nurses, community health workers, and emerging healthcare leaders.

Medical Outreach Impact – January 2 Initiative

On January 2, JoMabel Healthcare Foundation's team of doctors and nurses partnered with the Nigerian Red Cross Society, Aguata Branch, to host a community medical outreach in Ufuma at the Founder's residence.

Services Delivered

Service	Individuals
TB X-ray screening	98
Blood pressure checks	175
Blood sugar testing (RBS/FBS)	168

Medications Provided

Medication / Treatment	Quantity
Malaria treatment	164

Collaboration Model

- Nigerian Red Cross team managed records, registration, and basic screening support.
- JoMabel Foundation doctors and nurses handled clinical review and prescriptions.

Progress, Governance, and Outlook

Progress to Date

- Texas nonprofit established
- IRS 501(c)(3) application underway
- Governance and Board structure in place
- Over $140,000 invested by the Founder
- Medical Center approximately 70% complete
- Training Center approximately 30% complete

Funding Status

The project has been fully funded by the Founder to date. With construction and early operations advancing, additional support is now needed to complete both facilities, procure equipment, launch services, and expand outreach.

Community and Future Vision

Leadership & Governance

- Dr. Clara Ada Ogbaa – Founder & President
- Ike Ogbaa, MD – Director & Chair
- Mrs. Doyin Antiabong – Secretary
- Dr. Comfort Obi – Director
- Attorney Sharonbillet Ottah – Director
- Dr. Nneka Ogbaa – Director

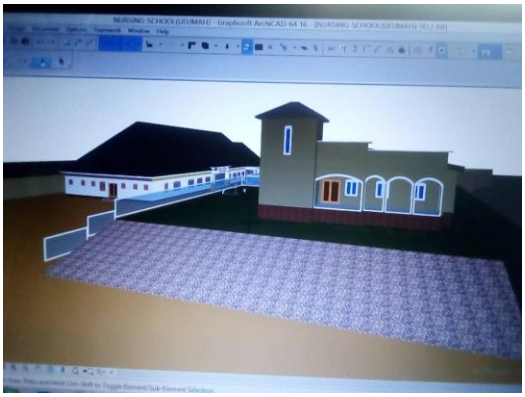

All board members serve in a voluntary capacity.

Board Expansion

The Foundation is expanding its Board to add independent members with expertise in healthcare, finance, law, and nonprofit leadership in alignment with IRS governance best practices.

Future Design & Build Vision

JOMABEL
HEALTHCARE FOUNDATION

Closing

What began as a personal mission has evolved into a transformative initiative to build sustainable, integrated community healthcare systems where none previously existed. With continued support and partnership, JoMabel Healthcare Foundation will not only complete this vision but expand it for generations to come.
